

# Wissenschaftsgeleitete Forschungsinfrastrukturen für die Geistes- und Kulturwissenschaften in Deutschland

Perspektive: Ligue des Bibliothèques Européennes de Recherche – Association of European Research Libraries (LIBER)

15. Februar 2018 – Berlin

Prof. Dr. Andreas Degkwitz

Humboldt Universität zu Berlin – Chair der LIBER Working Group « Digital Humanities »

# Bibliotheken in Europa

- Zahlreiche wissenschaftliche Bibliotheken Europas haben umfassende digitale Sammlungen des kulturellen Erbes: Nationalbibliotheken, Staatsbibliotheken, Universitätsbibliotheken (mit langer Tradition).
- Das Spektrum an Materialien/Materialgattungen ist breit und divers: Bücher, Zeitschriften, Zeitungen, alte und junge Drucke, Inkunabeln, mittelalterliche Codices, Flugschriften, Bild- und Fotomaterialien etc.
- Zugleich existieren europaweite und nationale Infrastrukturen: Europeana, Deutsche Digitale Bibliothek, Gallica etc.
- Große Nähe zur Forschung – vor allem an Universitätsbibliotheken.

# LIBER

- LIBER is the principal network of European research libraries with over 420 libraries in more than 40 countries.
  - LIBER Strategy for 2018-2022: Research Libraries Powering Sustainable Knowledge in the Digital Age:
    - Open Access is the predominant form of publishing;
    - Research Data is Findable, Accessible, Interoperable and Reusable (FAIR);
    - Digital Skills underpin a more open and transparent research life cycle;
    - Research Infrastructure is participatory, tailored and scaled to the needs of the diverse disciplines;
    - The cultural heritage of tomorrow is built on today's digital information.
- ➔ **DH ist fest in LIBER-Bibliotheken verankert.**

# LIBER Strategy

## Powering Sustainable Knowledge in the Digital Age

Our Vision for the research landscape in 2022 is that the role of research libraries will lie in Powering Sustainable Knowledge in the Digital Age:

- Open Access is the predominant form of publishing;
- Research Data is Findable, Accessible, Interoperable and Reusable (FAIR);
- Digital Skills underpin a more open and transparent research life cycle;
- Research Infrastructure is participatory, tailored and scaled to the needs of the diverse disciplines;
- The cultural heritage of tomorrow is built on today's digital information.

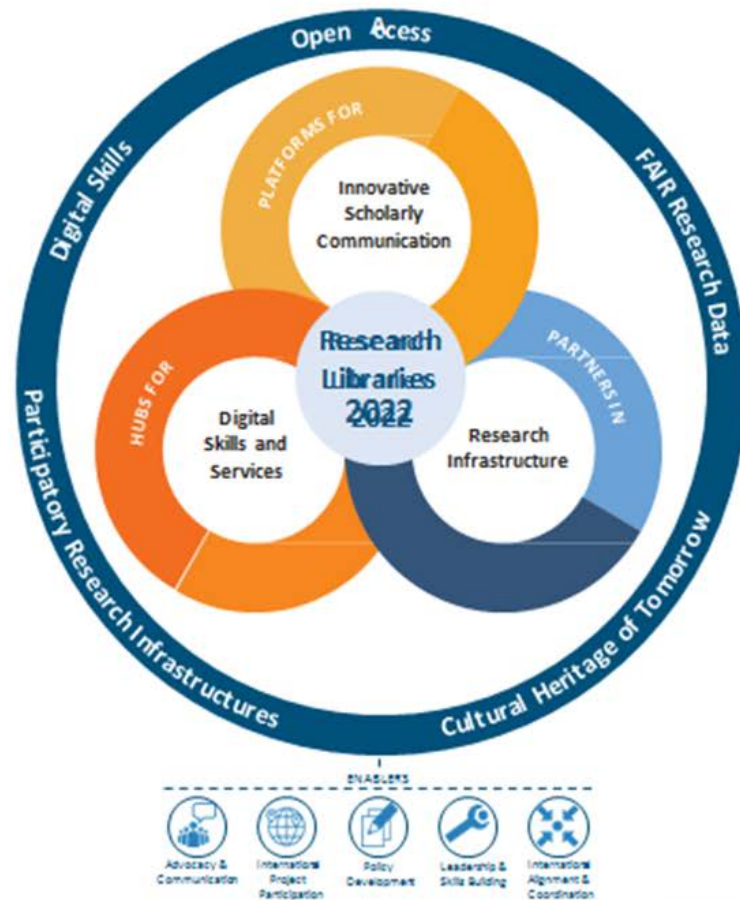

### Three Strategic Directions

Research libraries will have an important role to play in these five developments. To realise this, LIBER Institutions will work together on the themes identified by three (interconnected) strategic directions: Innovative Scholarly Communication, Digital Skills and Services, and Research Infrastructure.

### Added Value and Support for LIBER Institutions

LIBER, as a European organisation, brings added value and support for LIBER Institutions in the form of the following enablers:

- Advocacy and communication capacity;
- Engagement in international projects;
- Policy development;
- Leadership capacity building;
- Connecting to our international network and partners.

# Diversität und Spezifik

- Diversität der Bestände der Bibliotheken
- Bereitstellung noch nicht flächendeckend standardisiert
- Fachspezifische Anforderungen an Bearbeitung/Verarbeitung
- Konsolidierung und Spezifizierung der disziplinären Anforderungen
- Perspektivisch anzustrebende Standardisierung in weiteren Schritten
- Kooperation zwischen Forschung und Bibliothek → Data Re-Use Charta

**Vielen Dank – Fragen?**
